Value List Name	Value List Version	Value List Description	Organization
Substance Classification Lookup	1	Permitted set of relations of substances to a group of substances.	EPA / OEI - Office of Environmental Information
Substance Characteristic Lookup	1	Permitted set of the characteristics of substances of interest to SRS.	EPA / OEI - Office of Environmental Information
TSN Context Lookup	1	Permitted set of the contexts with which taxonomic serial numbers are used in SRS.	EPA / OEI - Office of Environmental Information
Substance List Names	1	Sources of substance data in the SRS other than EPA data sources and regulations.	EPA / OEI - Office of Environmental Information
TSCA Flags Lookup	1	Permitted set of TSCA EPA Inventory Flags.	EPA / OEI - Office of Environmental Information
Synonym Relationship Lookup	1	Permitted set of synonym relationships.	EPA / OEI - Office of Environmental Information
Synonym Quality Lookup	1	Permitted set of synonym qualities.	EPA / OEI - Office of Environmental Information
Synonym Name Type Lookup	1	Synonym Name Type LookupSynonym Name Type Lookup	EPA / OEI - Office of Environmental Information
Alt. ID Context Lookup	1	Permitted set of substance synonym alternate identifications.	EPA / OEI - Office of Environmental Information
List Type Lookup	1	Permitted set of substance list name types.	EPA / OEI - Office of Environmental Information
Kingdom Lookup	1	Permitted set of substance kingdoms.Kingdom Lookup	EPA / OEI - Office of Environmental Information
Substance Char. Type Lookup	1	Permitted set of the types of characteristics of substances of interest to SRS.	EPA / OEI - Office of Environmental Information
Substance Category Lookup	1	Permitted set of substance categories.	EPA / OEI - Office of Environmental Information
Substance Cat. Class Lookup	1	Permitted set of substance category classifications.	EPA / OEI - Office of Environmental Information
Subs CAS Number Context Lookup	1	Permitted set of the CAS Registration Numbers	EPA / OEI - Office of Environmental Information
Role Lookup	1	Permitted set of the contact roles.	EPA / OEI - Office of Environmental Information
Request Type Lookup	1	Permitted set of the request types.	EPA / OEI - Office of Environmental Information
Substance Relation Type Lookup	1	Permitted set of the types of relationship of names for related terms and synonyms.	EPA / OEI - Office of Environmental Information
Status Lookup	1	Permitted set of the statuses of substance names.	EPA / OEI - Office of Environmental Information

Value List Name	Value List Version	Value List Description	Organization
Water Range	1	Range Code representing the on-site water release from Part II, Section 5.3.A of the Form R.	EPA / OEI - Office of Environmental Information
Type	1	This is used as part of the TRIPS standardization routine, the type code determines whether this is part of the facility name standardization (type = 1) or part of the address standardization (type = 2)	EPA / OEI - Office of Environmental Information
Resolved	1	The TRIPS_NOSE_STATUS table is used to track NOSE error submissions and whether the error has been corrected.	EPA / OEI - Office of Environmental Information
Relative Emission Range Code	1	Range Code representing the off-site transfer.	EPA / OEI - Office of Environmental Information
Request Type	1	Report request type representing the available report types for data download. (Example: Biological, Regular, Habitat, station, etc.)	
Detection Limit	1	Result value detection limit	
Current Type Code	1	The code that represents the type of current produced by the electroshock equipment.	
Cooperating Electronic Address Type	1	cooperating organization electronic address type	
Cooperating Address Type	1	cooperating address type	
Characteristic Type	1	Characteristic type shot names.	
Characteristic Group Type	1	The Type of Characteristic Groups in the tables CHARACTERISTIC_CHARTYPE, STATION_CHAR	
Biological Group Type	1	The name of the kind of group. Examples include: 1. population census by taxon (non-duplicative species count) 2. Coliform bacteria census by taxon 3. Single taxon frequency class 4. Single taxon group summary 5. Single taxon individual	
Biological Group Count Type	1	A name that represents the process which was used in the determination of the Single Taxon Summary Group result value.

VerticalReferenceDatum	1	Vertical Reference Datum	
VerticalCollectionCode	1	Vertical Collection Code	
VerificationMethodCode	1	Verification Method Code	
UnitTypeCode	1	Unit Type Code	
UnitCode	1	Unit Code	
TribalCode	1	Code defining the Native American Nations within the United States	
StatusCode	1	Status Code	
Physical Feature Sub Class Code Simple Type	1	A data type for a class of a physical feature	
Physical Feature Color Code Simple Type	1	A data type for a class of a physical feature	
Physical Feature Category Code Simple Type	1	A data type for a kind of physical feature. This code is used for defining a SMT category.	
Reachback Request Code Simple Type	1	A data type that defines the various code values for Reachback Request	
Reachback Recommendation Code Simple Type	1	A data type that defines the various code values for the various Reachback Recommendation.	
Rap Sheet Purpose Code Simple Type	1	A data type for a code set indicating the purpose for which the Rap Sheet will be used.	
CDA Code Simple Type	1	A data type for Manner and Cause of Death	
CDL Holder Code Simple Type	1	A data type for a code set indicating at the time of the citation, whether the individual holds a Commercial Driver License (CDL) or, in the case of an unlicensed driver, whether the individual's last held license was a CDL.	
Charge Allegation Category Code Simple Type	1	A data type for a list of NCANDS (National Child Abuse and Neglect Data System) allegation categories.	
Charge Category Code Simple Type	1	A data type for a code that identifies a type of charge.	
Criminal Activity Category NDEx Code Simple	1	A data type for a code that identifies additional

Type		information on criminal activity of offenders in the offense. N-Dex code list includes all NIBRS codes, plus additional codes.	
Decal Period Code Simple Type	1	A data type for the lifespan of a decal.	
Decon Capacity Code Simple Type	1	A data type for a code set of the capacity for chemical/biological/radiological patient decontamination.	
Degree 360 Simple Type	1	A data type for a value between 0 (inclusive) and 360 (exclusive).	
Degree 90 Simple Type	1	A data type for a value between 0 (inclusive) and 90 (exclusive).	
Delta Direction Measure Simple Type	1	A data type for a direction of a delta	
DEN Code Simple Type	1	A data type for Denomination.	
Departure Category Code Simple Type	1	A data type for a kind of departure.	
Dependent Termination Code Simple Type	1	A data type for the reason why a dependent of an alien student or exchange visitor may be terminated.	
Detention Detainer Lift Code Simple Type	1	A data type for the classification of the reason for the release of an alien from detention by United States immigration officials.	
Detention Release Reason Category Code Simple Type	1	A data type for the classification of the basis for the release of an alien from detention by United States immigration officials.	
Detention Release Reason Code Simple Type	1	A data type for the classification of the basis for the release of an alien from detention by United States immigration officials.	
Developmental Disability Code Simple Type	1	A data type for describing a person's developmental disabilities	
Device Category Code Simple Type	1	A data type for a code that identifies the type of the communication device.	
Direction Measure Simple Type	1	A data type for an angle of direction between -

		179 and 180, with 0 being upright	
Device Monitoring Mode Code Simple Type	1	A data type for a level of human monitoring for an image capture device	
DHS Driver License Issuing Country Code Simple Type	1	A data type for a code set that identifies a country from the DHS Western Hemisphere Travel Initiative.	
Direction Code Simple Type	1	A data type for compass directions.	
Direction Datum Code Simple Type	1	A data type for a reference direction as determined by the means by which it is established (e.g., by the direction of a geographic or magnetic pole of the Earth).	
Facility Category Code Simple Type	1	A data type that defines the FacilityCategoryCodes	
Facility Operational Status Code Simple Type	1	A data type that defines the Facility Operational Status Codes	
Facility Status Code Simple Type	1	A data type for a code set of facility status.	
Gambling Equipment Category Code Simple Type	1	A data type for a code that identifies a type of games and/or gambling apparatus	
Gang Involvement Category Code Simple Type	1	A data type for a code that identifies gang involvement of offenders in an offense.	
Geodetic Datum Coordinate System Code Simple Type	1	A data type for a geospatial coordinate system	
GNDA Org Code Simple Type	1	A data type for list of organizations that participate in the Global Nuclear Detection Architecture.	
Grain Category Code Simple Type	1	A data type for a code that identifies a type of grain.	
HAI Code Simple Type	1	A data type for Hair Color.	
Hair Color Code Simple Type	1	A data type for a hair color	
Haz Mat Cargo Release Code Simple Type	1	A data type for an indication that a motor vehicle had a hazardous materials placard as required

		by federal/state regulations.	
Haz Mat Code Simple Type	1	A data type for whether a driver was operating a vehicle carrying hazardous materials.	
Haz Mat Placard Display Status Code Simple Type	1	Haz Mat Placard Display Status Code Simple Type	
Haz Mat Placard Suffix Text Simple Type	1	A data type for a placard number from bottom of diamond.	
Image Scan Category Code Simple Type	1	A data type for a kind of image scan	
Keepsake Category Code Simple Type	1	A data type for a code that identifies a kind of knife.	
Knife Category Code Simple Type	1	A data type for a code that identifies a kind of knife.	
Latitude Degree Simple Type	1	A data type for a degree of latitude.	
Law Enforcement Contact Attention Code Simple Type	1	A data type for describing the unit requiring special attention for the contact.	
Location Function Code Simple Type	1	A data type for a code that identifies the general type of location.	
ReportingPeriodCode	1	Reporting Period Code	
RemoteSensingCode	1	Remote Sensing Code	
ReleasePointType	1	Release Point Type	
RegulationCode	1	Regulation Code	
StateFIPSCode	1	Code defining the US States	
Location General Category Code Simple Type	1	A data type for a code that identifies the general type of location.	
Location Kind Code Simple Type	1	A data type for the kinds of locations that may appear on an itinerary.	
Location Sublocation Category Code Simple Type	1	A data type for a code that identifies a location inside of another location.	
Longitude Degree Simple Type	1	A data type for a degree of longitude.	
LPR Canadian Province Code Simple Type	1	A data type for a code which indicates the

		Canadian Province on the Conveyance License Plate	
LPR Hit Indicator Code Simple Type	1	A data type for a code indicating whether a hit is encountered in the records for the conveyance under question.	
LPR Image Source Code Simple Type	1	A data type for a code which indicates the type of image	
LPR Message Category Code Simple Type	1	A data type for the values of a license plate reader (LPR) message category.	
LPR Mexican State Code Simple Type	1	A data type for a code which indicates the Mexican state on the Conveyance License Plate	
Sample Type	1	The text describing the type of field activity being performed.	
Test Batch Type	1	Identifier of the type or category of method.	
Result Type	1	Indicator of the kind of test result being reported.	
Analytical Method	1	Identifies the procedures/ processes and references required to determine the methods used to obtain a result.	
Cell Shape	1	The cell shape of the phytoplankton organism. For example, a chrysophyta can have a form and a shape.	
Funding Source Type Identifier	1	The unique, identifying ID for the Funding Source Type.	
Vehicle Cargo Body Category Code Simple Type	1	A data type for a kind of body for buses and trucks more than 10,000 lbs (4,536 kg) GVWR.	
Vehicle Bus Use Code Simple Type	1	A data type describes the common type of bus service this vehicle was being used as at the time of the crash. Buses are any motor vehicle with seats to transport nine (9) or more people, including the driver's seat. This element does not include vans which are owned and operated for personal use.

Value List Name	Value List Version	Value List Description	Organization
Accident Severity Code Simple Type	1	A data type for severity levels of an accident.	
Vehicle Body Category Code Simple Type	1	A data type for a category indicating the general configuration or shape of a motor vehicle distinguished by characteristics such as number of doors, rows of seats, windows, or roof line.	
VCO Code Simple Type	1	A data type for Vehicle Color.	
Value Data Class Code Simple Type	1	A data type that defines the various code values for the atomic data classes available for defining the underlying data class for data elements that may be represented by string values. The data classes are a subset of the W3c data types and the derived atomic data types.	
UTM Zone Numeric Simple Type	1	A data type for identifying one of the 60 north-south zones in a UTM grid, each covering a strip of the Earth 6 degrees wide in longitude.	
UTM Hemisphere Code Simple Type	1	A data type for a hemisphere designation for a UTM coordinate.	
US State Numeric Code Simple Type	1	A data type for numeric state codes.	
US State Code Simple Type	1	A data type for states.	
USMTF Threat Code Simple Type	1	A data type for a USMTF-defined threat code.	
USMTF Environment Category Code Simple Type	1	A data type for a USMTF-defined force-threat designator code used in combination with threat codes.	
UNECE Category Code Simple Type	1	A data type for the UNECE Categorization of the container/Packaging.	
Uncertainty Value Simple Type	1	A data type for a value indicating the uncertainty of the delta direction measure	
TYPS Code Simple Type	1	A data type for Security Type.	
TYPO Code Simple Type	1	A data type for ORI Type.	
TYP Code Simple Type	1	A data type for Gun Type.	
TYPA Code Simple Type	1	A data type for Article Type.

Value List Name	Value List Version	Value List Description	Organization
Tribal Code Simple Type	1	A data type for the names of the tribes.	
Work Zone Workers Presence Indication Code Simple Type	1	A data type for the Work Zone Workers Presence	
Source Code	1	Indicates how the error message was generated.	
Point Source Code	1	The source code for a point. Indicates how the point was entered.	
Need Type Name	1	The Name of the Need Type.	
Message Code	1	Indicates the Type of Message.	
Population Type Code	1	Indicates whether this population type is captured in total population, or number of units.	
Global Flag	1	This flag indicates if it applies to all data areas.	
Projected Treatment Plant Type	1	For a facility that is a projected Treatment Plant, the Treatment Plant Type is indicated.	
Present or Projected Code	1	Indicate whether the level is present or projected.	
Present Treatment Plant Type	1	For a facility that is a present Treatment Plant, the Treatment Plant Type is indicated.	
Consistent with CBR Code	1	Indicates whether the CBR data is consistent with the CBR data from the latest data update from CBR.	
Cost Curve Assigned or Run Code	1	This code indicates that the cost curve has either been assigned to a Facility or the cost curve that was assigned has been run, i.e. Cost has been created.	
Law Enforcement Contact Vehicle Position Code Simple Type	1	A data type for describing the location of the contact subject in a vehicle.	
Layer Material Kind Code Simple Type	1	A data type that defines the layer material kind code values	
Lead Source Category Code Simple Type	1	A data type for a LEAD SOURCE TYPE	
Processing Establishment ID Code Simple Type	1	A data type for a the identification code specifying the slaughtering, freezing, or other	

System of Registries - Export

Value List Name	Value List Version	Value List Description	Organization
		processing establishment.	
Problem Treatment History Code Simple Type	1	A data type listing the kinds of recommended treatment for the presented problem in a prior intervention.	
Prior Intervention Code Simple Type	1	A data type for describing a prior intervention.	
Pretrial Release Status Code Simple Type	1	A data type for a code that identifies the release status of the subject of pre-trial investigation.	
Presenting Problem Code Simple Type	1	A data type for describing problems presented at intake.	
Prenatal Age Unit Code Simple Type	1	A data type for a code that identifies the unit of measure of an age of an unborn child.	
Premise Security Category Code Simple Type	1	A data type for a code that identifies the type of security present at the point of entry to a premises for an incident.	
Precious Metal Code Simple Type	1	A data type for a code that identifies a rare metallic chemical element of high economic value, typically regarded as an investment and industrial commodity.	
Victim Perception Code Simple Type	1	A data type for a code that indicates the victims perception of the subject or actions of the subject.	
Victim MO Was Code Simple Type	1	A data type for a code that identifies the actions of the victim at time of incident.	
Victim MO Subject Contact Conclusion Code Simple Type	1	A data type for a code that identifies how victim subject contact ended based on investigator perception.	
Victim MO Recovery Code Simple Type	1	A data type for a code that characterizes the recovery of the victim based on investigator perception.	
Victim MO General Lifestyle Code Simple Type	1	A data type for a code that identifies lifestyle characteristics for the victim person based on investigator experience.

Value List Name	Value List Version	Value List Description	Organization
Victim MO Found Clothed Code Simple Type	1	A data type for a code that characterizes clothed condition of the victim.	
Vessel Operational Condition Of Equipment Code Simple Type	1	A data type for an Operational Condition of Equipment (OCE) of a vessel.	
Vertical Datum Code Simple Type	1	A data type that defines the various code values for Kind of version	
Version Kind Code Simple Type	1	Version Kind Code Simple Type	
Velocity Code Simple Type	1	A data type for units of measurement for a speed or velocity.	
Vehicle Use Code Simple Type	1	A data type for a kind of special function being served by this vehicle regardless of whether the function is marked on the vehicle.	
Vehicle Use Code Simple Type	1	A data type for ways in which a vehicle is used.	
Measure Unit Code Simple Type	1	Codes the represent units of measure	
Location General Category Code Simple Type	1	A data type for a code that identifies the general type of location.	
Location Function Code Simple Type	1	A data type for a location categorized on the function that it performs	
Location Type	1	Type of location for a site.	
Company	1	Indicates company codes responsible for data collection or analysis.	
State	1	Indicates the abbreviation for US state or US territory.	
Company Type	1	Indicates the type of company responsible for data collection.	
Location Category NDEx Code Simple Type	1	A data type for a code that characterizes a location or area. Includes all NIBRS codes, plus additional codes.	
Jurisdiction Authority Code Simple Type	1	A data type for an authority with jurisdiction over a particular area.	
Facility Operational Status Code Simple Type	1	Names of operating status categories describing

		the operating status of a permitted unit	
Electronic Address Category Code Simple Type	1	A data type for a kind of electronic address.	
Direction Code Simple Type	1	A data type for compass directions.	
Matrix	1	Code that identifies the matrix, such as soil, groundwater, and sediment. The matrix of the sample when it is analyzed may be different from the matrix of the sample when it is collected (e.g. leachates), so this field is available at both the sample and test level.	
Matrix Class	1	Denotes whether data was captured in the field or laboratory.	
Qualifier	1	Identifier of type of method that identifies it as reference, equivalent or other.	
Material	1	Material characteristics for built environments (i.e., wells, buildings) or soil and geology samples.	
Unit	1	Identifies the value and the associated units of measure for measuring an observation or analytical result value.	
Basin	1	Hydrologic Unit Codes (HUC) for watershed identification.	
Coordinate Geometric Type	1	The name that identifies the geometric entity represented by one point or a sequence of latitude and longitude points.	
Coordinate Elevation Method	1	The name that identifies the method used to collect the vertical measure (i.e., the altitude) of a reference point.	
Coordinate Elevation Datum	1	The measure of elevation (i.e., the altitude), above or below a reference datum.	
Coordinate Horizontal Method	1	The name that identifies the method used to determine the latitude and longitude coordinates for a point on the earth.	

System of Registries - Export

Value List Name	Value List Version	Value List Description	Organization
Coordinate Horizontal Datum	1	The code that represents the reference datum used in determining latitude and longitude coordinates.	
Photon Source Code Simple Type	1	A data type that defines the various code values for the Photon source code	
Photo Equipment Category Code Simple Type	1	A data type for a code that identifies the type of camera or imaging device.	
Photo Descriptor Code Simple Type	1	A data type for an attribute of a captured facial image	
Phone Category Code Simple Type	1	A data type describing the kinds of phone devices	
Petition Category Code Simple Type	1	A data type for the type of petition filed.	
Container ISO6346 Code Simple Type	1	A data type for ISO 6346 shipping container codes.	
Construction Material Category Code Simple Type	1	A data type for a code that identifies a type of construction material.	
Accident Severity Code Simple Type	1	A data type for severity levels of an accident.	
Alarm Event Category Code Simple Type	1	A data type for kinds of alarm events.	
Alarm Event Location Category Code SimpleType	1	A data type for the kinds of location at which an alarm event occurs.	
Alert Category Code Simple Type_SCR	1	A data type for denoting the type of alert message.	
Alert Event Details Certainty Code Simple Type	1	A data type for the certainty code designated to an alert event.	
Alert Event Details Response Recommendation Code Simple Type	1	A data type for the response recommendation code designated to an alert event.	
Alert Event Details Severity Code Simple Type	1	A data type for the severity code designated to an alert event.	
Alert Event Details Urgency Code Simple Type	1	A data type for the urgency code designated to an alert event.	
Analysis Result Status Code Simple Type	1	A data type for status states of the analysis of a

Angular Minute Simple Type	1	A data type for a minute of a degree, with a restricted range of 0 (inclusive) to 60 (exclusive).	
Angular Second Simple Type	1	A data type for a second of a minute, with a restricted range of 0 (inclusive) to 60 (exclusive).	
Apportionment Qualifier Category Code Simple Type	1	A data type for the different categories of an apportioned conveyance.	
Arrest Category Code SimpleType	1	A data type for kinds of arrests that can occur.	
Arrest Category JABS Code Simple Type	1	A data type for a Joint Automated Booking System (JABS) code that identifies the type of apprehension.	
Arrestee Weapon Code Simple Type	1	A data type for weapons with which a subject may be armed with upon apprehension.	
Arrest Method Category Code Simple Type	1	A data type describing the kinds of Apprehension methods	
Art Object Category Code Simple Type	1	A data type for a code that identifies the type of art object.	
Assessment Recommended Course Of Action Category Code Simple Type	1	A data type for describing a course of action.	
Assignment Category Code Simple Type	1	A data type for a code that identifies a subject's assignment category.	
Asset Status Code Simple Type	1	A data type for a status of an asset.	
Attorney Status Code Simple Type	1	A data type for describing the role of an attorney as it relates to their client.	
Audio Visual Recording Category Code Simple Type	1	A data type for a code that identifies the type of audio visual recording.	
Availability Status Code Simple Type	1	A data type for a code set of service availability.	
Basis Of Appointment Code Simple Type	1	A data type for findings that justify representation	
BCO Code Simple Type	1	A data type for Boat Color.	
Bed Category Code Simple Type	1	A data type for a code set of available Bed

		Types.	
Benefit Application Category Code Simple Type	1	A data type for a kind of benefit application.	
Benefit Application Status Category Code Simple Type	1	A data type for a status of a benefit application.	
Brand Vehicle Disposition Code Simple Type	1	A data type for vehicle dispositions.	
Conveyance ID Issuing Jurisdiction Category Code Simple Type	1	A data type describing the kinds of jurisdictions issuing Conveyance registrations	
Conveyance Kind Code Simple Type	1	A data type for the kinds of conveyances.	
Conveyance Org Relationship Kind Code Simple Type	1	A data type for the kinds of relationships that may exist between a conveyance and an organization.	
Conveyance Relationship Kind Code Simple Type	1	A data type that defines the kind of relation that a conveyance can have	
COTP Region Code Simple Type	1	A data type for a Captain of the Port (COTP) Zone.	
Country Code Simple Type	1	A data type for country, territory, or dependency codes.	
Country Code Simple Type_ansi	1	A data type for country codes specified by DHS as part of the DHS Western Hemisphere Travel Initiative.	
Document Category Code Simple Type_SCR	1	A data type for a kind of status of a document.	
Document Status Category Code Simple Type	1	A data type for a kind of status of a document.	
Domestic Violence Child Impact Code Simple Type	1	A data type for a code that indicates the impact of domestic violence upon children.	
Domestic Violence Level Code Simple Type	1	A data type for a code that identifies the level of domestic violence involved in the incident.	
Longitude Direction	1	The direction of the longitude measurement, being either E - East, or W - West. A list of the two valid codes are shown with the meanings.	
Domestic Violence Pattern Indication Code Simple Type	1	A data type for a code that indicates the subject's pattern of domestic violence.

Domestic Violence Social History Code Simple Type	1	A data type for a code that indicates contributing factors to subject's domestic violence history.	
Drilling Equipment Category Code Simple Type	1	A data type for a code that identifies the type of drilling tool.	
Driver Contributing Circumstances Code Simple Type	1	A data type for actions by the driver that may have contributed to the crash.	
Driver Distraction Code Simple Type	1	A data type for distractions which may have influenced the driver performance.	
Driver Drug Test Result Code Simple Type	1	A data type for results of tests performed to determine presence of drugs.	
Driver License Category Code Simple Type	1	A data type for a current kind of an individuals driver license at the time of the crash.	
Driver License Class Code Simple Type	1	A data type for a kind of License assigned by authorizing agent issuing a driver license to the individual.	
Driver License Endorsements Code Simple Type	1	A data type that indicates any endorsements to the driver's license, both commercial and non-commercial.	
Driver License HME Threat Code Simple Type	1	A data type for a code set indicating if a driver should be issued a Hazardous Material Endorsement, as determined by the TSA background check and adjudication process.	
Driver License Jurisdiction Other Code Simple Type	1	A data type for the geographic or political entity issuing a driver license other than US, Canadian Province, Mexican State.	
Driver License Medical Certification Restriction Code Simple Type	1	A data type for a restriction imposed on a commercial driver by a medical examiner.	
Driver License Medical Certification Status Code Simple Type	1	A data type for an indication of the status of a driver's medical certification.	
Driver License Medical Self Certification Code Simple Type	1	A data type for a restriction imposed on a commercial driver by a medical examiner.	
Driver License Permit Status Code Simple Type	1	A data type for a current status of an individuals

		driver license at the time of the crash.	
Driver License REAL ID Compliance Code Simple Type	1	A data type for a code set that is an indication of the degree to which a driver license or ID Card is compliant with the REAL ID Act.	
Driver License Withdrawal Action Code Simple Type	1	A data type for kinds of driver license withdrawal actions.	
Driver License Withdrawal Basis Code Simple Type	1	A data type for bases for withdrawal action for a driver.	
Driver License Withdrawal Due Process Status Code Simple Type	1	A data type for due process statuses of a withdrawal action.	
Driver License Withdrawal Eligibility Code Simple Type	1	A data type for when a driver may be eligible to apply for reinstatement of driving privileges that have been withdrawn.	
Driver License Withdrawal Extent Code Simple Type	1	A data type for extents of withdrawals.	
Driver Violation Code Simple Type	1	A data type for all motor vehicle-related violations code category, if any, which apply to this driver.	
Driving Endorsement Code Simple Type	1	A data type for endorsements on a driver license or a driver license permit which authorizes the operation of specified kinds of vehicles carrying specified loads.	
Driving Insurance Status Code Simple Type	1	A data type for the ways in which a driver of a vehicle may or may not be insured.	
Item Category Code Simple Type	1	A data type for a code that identifies a type of property.	
Iris Missing Code Simple Type	1	A data type for an enumeration of the iris image missing information codes.	
Intersection Category Code Simple Type	1	A data type for an intersection consists of two or more roadways that intersect at the same level.	
Interest Notification Category Code Simple Type	1	A data type for a code specifying whether an interest is an indicator or notification, warning or

		alert.	
Intellectual Property Subject Matter Category Code Simple Type	1	A data type for a code that identifies the type of subject matter protected by intellectual property rights.	
Intangible Item Category Code Simple Type	1	A data type for a code that identifies the type of intangible property.	
Insurance Coverage Category Code Simple Type	1	A data type for categories of coverage provided by an insurance policy.	
Inspection Threat Finding Code Simple Type	1	A data type that defines the code Values for the various Inspection threat findings	
Inspection Resolution Code Simple Type	1	A data type for the code values for Inspection Resolution Code	
Injury Location Code Simple Type	1	A data type for a code that identifies the body location of a victim's injury.	
Injury Category Code Simple Type	1	A data type for a code that identifies the type of bodily injury suffered by a person who was the victim of the incident. Includes all NIBRS Codes, plus additional codes.	
Driving Offense Code Simple Type	1	A data type for ACD codes for a driving offense.	
Driving Restriction Code Simple Type MMUCC	1	A data type for restrictions assigned to an individuals driver license by the license examiner.	
HSP Code Simple Type	1	A data type for Boat Hull Shape.	
HUL Code Simple Type	1	A data type for Boat Hull Type.	
ID Acquisition Method Code Simple Type	1	A data type that defines the codes for the methods by which the identifier of an object can be determined.	
Identification Category Code Simple Type	1	A data type for a kind of identification.	
IDT Code Simple Type	1	A data type for Identity Theft Type.	
IFS Code Simple Type	1	A data type for Identification for Firearm Sales.	
Image Compression Algorithm Code Simple	1	A data type for an image compression algorithm

Image Distortion Category Code Simple Type	1	A data type for a kind of distortion in an image	
Image Distortion Measurement Code Simple Type	1	A data type for a manner in which distortion in an image was measured, i.e. whether it was estimated or calculated	
Image Feature Vertex Quantity Simple Type	1	A data type for a number of coordinate points in an image polyline or polygon	
Image Hash Value Simple Type	1	A data type for a hash value computed from a binary object, like an image	
Image Occlusion Category Code Simple Type	1	A data type for a kind of blockage in an image	
Image Occlusion Opacity Code Simple Type	1	A data type for an opacity of a blockage in an image	
Image Orientation Code Simple Type	1	A data type that defines the code values for the orientation of an image; i.e., portrait or landscape.	
Image Perspective Code Simple Type	1	A data type that defines the code Values for the viewing perspectives for image multimedia data.	
Image Pose Code Simple Type	1	A data type for angles of an entitys pose in a photograph.	
LSTA Code Simple Type	1	A data type for State/Country Index.	
Machinery Category Code Simple Type	1	A data type for a kind of machinery.	
MAK Code Simple Type	1	A data type for Gun Make.	
Maneuver Code Simple Type	1	A data type for a kind of manifest.	
Manifest Category Code Simple Type	1	A data type for a kind of manifest.	
Map Guide Brand Code Simple Type	1	A data type that defines the codes for the brands of map guides.	
Map Sampling Frequency Value Simple Type	1	A data type for a sampling frequency resolution in 10 micrometer units (0.01mm)	
Marital Status Code Simple Type	1	A data type for a code that identifies marital status.

Value List Name	Value List Version	Value List Description	Organization
Mass Code Simple Type	1	A data type for units of measurement for a weight value.	
Measured Item ID Kind Code Simple Type	1	A data type that defines the code values for Kind of identifier used for identifying a measured item.	
Measured Item Kind Code SimpleType	1	A data type for the kinds of items being inspected for Radiation/Nuclear threats.	
Measurement Class Code Simple Type	1	A data type that defines the code values for the classes of spectrum measurements that a radiation instrument can acquire for different kinds of radioactive sources or radiation fields.	
Measure Unit Code Simple Type	1	A data type that defines the various MeasureUnitCodes	
Medical Practitioner Specialty Code Simple Type	1	A data type for a code indicating the specialty of the medical practitioner.	
Medication Use Frequency Code Simple Type	1	A data type for describing the medication use frequency.	
Message Kind Code Simple Type	1	A data type for the code values that defines the various message kinds	
Message Priority Code Simple Type	1	A data type the defines the various code values that defines the priority associated with a message	
Message Status Code Simple Type	1	A data type that defines the various code values for data types that defines the status of a message	
Metal Code Simple Type	1	A data type for a code that identifies a metal.	
Method Of Access Code Simple Type	1	A data type for a method of access.	
Method Of Entry Code Simple Type	1	A data type for methods of entry into a structure or premises.	
Military Discharge Category Code Simple Type	1	A data type for kinds of discharges a person may receive from military service.	
MIME Content Code Simple Type	1	A data type for the kinds of MIME content and

		their file extension, as published by the Internet Assigned Numbers Authority (IANA.org).	
MIME Encoding Code Simple Type	1	A data type that defines the kinds of MIME transfer encodings, as published by the Internet Assigned Numbers Authority (IANA.org).	
Minutiae Ridge Count Residual Code Simple Type	1	A data type for a half of the octant in which a neighboring minutia lies	
Occupant Seat Other Location Code Simple Type	1	A data type for the location of the vehicle occupant prior to the first event in the sequence of events.	
Occupant Seat Row Code Simple Type	1	A data type for the occupants seat in the motor vehicle prior to the first event in the sequence of events.	
Occupation Category Code Simple Type	1	A data type for a kind of occupation.	
OrganizationCategoryCodeSimpleType_SCR	1	A data type describing the kinds of organizations involved in screening activities	
Occupation Code Simple Type	1	A data type for occupation codes.	
Octant Numeric Simple Type	1	A data type for a number identifying an octant	
OFF Code Simple Type	1	A data type for Offense Code.	
Offense Category NDEx Code Simple Type	1	A data type for a code that indicates the category of offense.	
Offense Code Simple Type	1	A data type for Uniform Crime Reporting (UCR) offense codes.	
Offense Level Code Simple Type	1	A data type for levels of an incident.	
Offense MO Crime And Motive Code Simple Type	1	A data type for a code that identifies probable crime types and/or motives based on investigator experience.	
OLS Code Simple Type	1	A data type for Operator License State.	
Passage Point Method Code Simple Type	1	A data type for a method of entry or exit.	
Organization Category Code Simple Type	1	A data type for a code that identifies the type of organization.

Organization Category Code Simple Type (nlets)	1	A data type for the functional kinds of an organization.	
Organization Status Category Code Simple Type	1	A data type describing the kinds of status values associated with an organization	
Packaging Form Code Simple Type	1	A data type that defines the various Packaging Form Codes	
Parent Child Kinship Category Code Simple Type	1	A data type for describing the nature of the relationship from a parent to a child	
Passage Point Code Simple Type	1	A data type for a code that identifies the point of entry to the premises for an offense.	
Structure Other Category Code Simple Type	1	A data type for a code that identifies any structure not fitting the other structure category definitions.	
Structure Occupied Code Simple Type	1	A data type for a code that characterizes structural occupancy.	
Structure Industrial Category Code Simple Type	1	A data type for a code that identifies a structure where goods are created or assembled using mechanical equipment.	
Target Sector Code Simple Type	1	A data type for the broad categorization of infrastructure type.	
System Operating Mode Code Simple Type	1	A data type for the operating modes of a system.	
Suspicious Activity Code Simple Type	1	A data type for the broad categorization of Suspicious Activity.	
Supervised Release Status Code Simple Type	1	A data type for a code that indicates the release status of the subject involved in supervised release.	
Supervised Release Category Code Simple Type	1	A data type for a code that identifies a kind of supervised release.	
Subject MO Sexual Practices Code Simple Type	1	A data type for a code that identifies the sexual practices and preferences of a subject based on investigator perception.

Subject MO Observation Code Simple Type	1	A data type for a code that identifies observations of the subject.	
Subject MO General Lifestyle Code Simple Type	1	A data type for a code that identifies lifestyle characteristics for the subject person based on investigator experience.	
Subject MO Action Code Simple Type	1	A data type for a code that identifies the actions of the subject at the crime scene to perpetrate crime and/or avoid apprehension based on investigator experience.	
Student Termination Code Simple Type	1	A data type for the classification of the reason for the premature ending of the participation of a non-immigrant student in an education program in the United States.	
Student Education Level Code Simple Type	1	A data type for a code that identifies a structure designed or used to store material for later use.	
Structure Storage Category Code Simple Type	1	A data type for a code that identifies a structure designed or used to store material for later use.	
Structure Residential Single Occupancy Category Code Simple Type	1	A data type for a code that identifies a private structure of residence by a single person, family, or other group (housemates).	
Structure Residential Non Single Occupancy Category Code Simple Type	1	A data type for a code that identifies a structure of residence that does not meet the definition of Single Occupancy.	
Structure Public Category Code Simple Type	1	A data type for a code that identifies a non-residential structure open to the public and/or maintained using tax dollars.	
CWNS User Status Identifier	1	The unique, identifying, code for this User Status.	
Pass Fail Code Simple Type	1	A data type for whether something has passed or failed some sort of test.	
Passport Category Code Simple Type	1	A data type for a kind of passport.	
PCO Code Simple Type	1	A data type for Protection Order Condition.

Percent Simple Type	1	A data type for a ratio, proper fraction, or percentage, with permissible decimal values ranging from 0 to 1 inclusive.	
Person Alert Status Category Code Simple Type	1	A data type for a person alert status.	
Person Blood Type Code Simple Type	1	A data type for a code set identifying a blood group and RH factor of a person.	
Person Build Code Simple Type	1	A data type for a code that identifies the person's physique or body shape.	
Person Category Code Simple Type	1	A data type for a kind of person type.	
Person Crossing Category Code Simple Type	1	A data type for a direction of a person crossing the U.S. border.	
Person Designator Category Code Simple Type	1	A data type for a kind of person designator.	
Person Ethnicity Code Simple Type	1	A data type for a code set identifying a cultural lineage of a person.	
Person Eye Color Code Simple Type	1	A data type for a code set identifying an eye color of a person.	
Person Eyewear Code Simple Type	1	A data type for a code that identifies the type of glasses or other eyewear worn by a person.	
Person Facial Hair Code Simple Type	1	A data type for a code that identifies the type of facial hair of a person.	
Person Hair Color Code Simple Type	1	A data type for a code set identifying a hair color of a person.	
Person Hair Length Code Simple Type	1	A data type for a code that identifies the length of the person's hair.	
Person Hair Length Code Simple Type	1	A data type for a code that identifies the length of the person's hair.	
Person Hair Style Code Simple Type	1	A data type for a code that identifies the style of a person's hair.	
Person Handed Code Simple Type	1	A data type for a code that identifies the hand the person is more adept with using.	
Rad Detector Kind Category Code Simple Type	1	A data type that defines the various code values

		for the kinds of radiation detectors that may compose a radiation instrument.	
Rad Detector Category Code Simple Type	1	A data type that defines the various code values for the categories of radiation detectors based on the type of particles and/or photon emission that can be detect from a radiological or nuclear substance.	
Rad Alarm Category Code Simple Type	1	A data type that defines the various code values for the categories of alarms.	
RAC Code Simple Type	1	A data type for Race.	
Property Loss Code Simple Type	1	A data type for what happens to a property item.	
Property Category Code Simple Type	1	A data type for categories or classifications of a property item.	
PRO Code Simple Type	1	A data type for Propulsion.	
Data List Type Indicator	1	Indicates whether the facility was Imported by the user from a text document, or Selected by the user from the Facility List.	
Need Type Identifier	1	The unique, identifying ID for a Need Type.	
Present Future Code	1	Indicates if this change can be used for present only, projected only or present and projected Changes for the Facility Type.	
Funding Information Source Code	1	Indicates where the funding information was sourced from.	
Owner Code	1	Thefaciity owner is either a Private entity, a Public Entity or a Federal Entity.	
Sample Fraction Type	1	The text name of the portion of the sample associated with results obtained from a physically-partitioned sample. Examples: - dissolved - suspended - total	
Result Value Type	1	The type of the result (eg. actual, estimated, calculated).

Non Motorist Action Before Crash Code Simple Type	1	A data type for an action of the non-motorist prior to the crash.	
Non Motorist Category Code Simple Type	1	A data type for a kind of Non-Motorist involved in a Traffic Accident.	
Non Motorist Contributing Circumstances Code Simple Type	1	A data type for actions that the non-motorist was undertaking at the time of the crash.	
Non Motorist Location Code Simple Type	1	A data type for a non-motorists location with respect to the roadway at the time of the crash.	
Non Motorist Safety Equipment Code Simple Type	1	A data type for safety equipment(s) used by the non-motorist.	
Non Negative Decimal Simple Type	1	A data type for a decimal value with a minimum value of 0.	
Notification Distribution Scope Category Code Simple Type	1	A data type for the category code denoting the intended level of distribution of the notification message.	
Notification Status Code Simple Type	1	A data type for a notification status codes.	
Notification Status Code Simple Type	1	A data type for a notification status codes.	
Occupant Air Bag Deployed Code Simple Type	1	A data type for deployment status of an air bag relative to the position in the vehicle for this occupant.	
Occupant Ejection Code Simple Type	1	A data type for occupant completely or partially thrown from the interior of the motor vehicle, excluding motorcycles, as a result of a crash.	
Occupant Protection System Helmet Use Code SimpleType	1	A data type for the helmet use by a motorcyclist, at the time of the crash.	
Occupant Protection System Use Code Simple Type	1	A data type for the restraint equipment in use by the occupant, or the helmet use by a motorcyclist, at the time of the crash.	
Occupant Seat Code Simple Type	1	A data type for the occupants seat in the motor vehicle prior to the first event in the sequence of

POB Code Simple Type	1	A data type for Place of Birth.	
Plea Category Code Simple Type	1	A data type for kinds of pleas.	
Placement Location Code Simple Type	1	A data type for a list that describes the location of a child or youth's placement.	
Physical Marking Category Code Simple Type	1	A data type for a classification of the kind of PERSON PHYSICAL MARKING.	
US County Code Simple Type	1	A data type for counties, parishes, or vicinages.	
US County Code Simple Type	1	A data type for US county codes.	
SourceClassificationCode	1	Codes used to identify emission generating processes	
Fuel Type Model Code	1	Fuel Type Model Code	
Fuel Configuration Code	1	Fuel Configuration Code	
Crash First Harmful Event Code Simple Type	1	http://release.niem.gov/niem/codes/mmucc/3.0/	
Crash First Harmful Event Location Code Simple Type	1	A data type for a location of the first harmful event as it relates to its position within or outside the trafficway.	
Crash Junction Relation Code Simple Type	1	A data type for a location of the first harmful event in relation to a junction.	
Crash Junction Relation Within Interchange Area Code Simple Type	1	A data type for a location of the first harmful event in relation to a junction.	
Crash Light Condition Code Simple Type	1	A data type for a kind/level of light that existed at the time of the motor vehicle crash.	
Cell Form	1	The name of the cell form for cellular organisms	
Blob Type	1	Type of Blob (Document/Graphic)	
Work Zone Law Enforcement Presence Code Simple Type	1	Work Zone Law Enforcement Presence Code Simple Type	
Work Zone Crash Location Code Simple Type	1	A data type for a crash that occurs in or related to a construction, maintenance, or utility work zone.

Work Zone Code Simple Type	1	A data type for a crash that occurs in or related to a construction, maintenance, or utility workzone and indicates kind of the workzone	
Watchlist Category Code Simple Type	1	A data type for a kind of watchlist.	
Warrant Category Code Simple Type	1	A data type for a kind of warrant.	
VST Code Simple Type	1	A data type for a code that identifies the general style of vehicle.	
VST Category Code Simple Type	1	A data type for a code that identifies the general style of vehicle.	
Volume Measure Unit Code Simple Type	1	A data type for volume unit of measurement codes.	
Volume Unit Code Simple Type	1	A data type for volume unit of measurement codes.	
VMA Code Simple Type	1	A data type for Vehicle Make.	
Visa Cancel Category Code Simple Type	1	A data type for a category of reason for invalidating a previously issued permission to enter the United States.	
Victim MO Disposal Code Simple Type	1	A data type for a code that identifies the manner of victim body disposal based on investigator perception.	
Victim MO Bindings Code Simple Type	1	A data type for a code that identifies the type of article used by the subject at the crime scene to bind a victim.	
Victim MO Approached Code Simple Type	1	A data type for a code that identifies how subject initially approached victim based on investigator experience.	
Victim Category Code Simple Type	1	A data type for a code that identifies the victim's relationship to subject who perpetrated a crime against them, depicting who the victim was to the offender.	
Victim To Subject Relationship Code Simple Type	1	A data type for a code that identifies the victim's relationship to subject who perpetrated a crime

		against them, depicting who the victim was to the offender.	
Subject Attitude Code Simple Type	1	A data type for a code that indicates the subject's attitude toward his or her actions.	
Religion Code Simple Type	1	A data type for a religion to which a person can subscribe or believe; a categorization of spiritual beliefs.	
Religion Code Simple Type	1	A data type for a religion to which a person can subscribe or believe; a categorization of spiritual beliefs.	
Relative Location Heading Simple Type	1	A data type for a compass heading of a direction from a reference location.	
Registration Status Detail Code Simple Type	1	A data type for additional information regarding a registration status.	
Registration Status Code Simple Type	1	A data type for activities recorded for a registration.	
Registration Plate Color Code Simple Type	1	A data type for colors of a vehicle registration plate or license plate.	
Registered Offender Category Code Simple Type	1	A data type for a code that identifies the category of a person's offender registration.	
Reason For Placement Change Code Simple Type	1	A data type for describing the reason for change in placement.	
Radionuclide Code Simple Type	1	A data type that defines the various code values for the operating modes of a radiation detection instrument.	
Crash Manner Code Simple Type	1	A data type for a manner in which two motor vehicles in transport initially came together without regard to the direction of force.	
Crash Road Contributing Circumstances Code Simple Type	1	A data type for an apparent condition of the road which may have contributed to the crash.	
Crash Road Surface Condition Code Simple Type	1	A data type for a roadway surface condition at the time and place of a crash.

Crash School Bus Related Code Simple Type	1	A data type for if a school bus or motor vehicle functioning as a school bus for a school-related purpose is involved in the crash.	
Driving Restriction Code Simple Type	1	A data type for categories of driving restrictions.	
Driving Status Code Simple Type	1	A data type for statuses of a drivers privilege type.	
Drug Category Code Simple Type	1	A data type for a kind of substance by which a person is intoxicated.	
Drug Category Code Simple Type UCR	1	A data type for kinds of drugs.	
Drug Involvement Suspicion Code Simple Type	1	A data type for driver or non-motorist involved in the crash suspected by law enforcement to have used drugs.	
Drug Test Status Code Simple Type	1	A data type for a Status of Drug Test.	
Drug Measurement Code Simple Type	1	A data type for the kinds of measurements used to specify a quantity of drugs or narcotics.	
Drug Test Category Code Simple Type	1	A data type for a kind of Drug Test.	
Drug Test Result Code Simple Type	1	A data type for results of tests performed to determine presence of drugs.	
Drug Use Frequency Code Simple Type	1	A data type for describing the frequency with which a substance is used.	
Minutiae Ridge Count Residual Code Simple Type	1	A data type for a half of the octant in which a neighboring minutia lies	
MNP Code Simple Type	1	A data type for Missing Person.	
MNU Code Simple Type	1	A data type for Miscellaneous Number Value.	
Morgue Capacity Code Simple Type	1	A data type for a code set of the status of the morgue capacity.	
Most Harmful Event Code Simple Type	1	A data type for an event that resulted in the most severe injury or, if no injury, the greatest property damage involving this motor vehicle.	
Motor Carrier Category Code Simple Type	1	A data type for a code set that categorizes a USDOT Number holder.

Motor Carrier Identification Category Code Simple Type	1	A data type motor carrier identification category	
Motorist Person Category Code Simple Type	1	A data type for a motorist person category code.	
MPC Code Simple Type	1	A data type for Missing Person Circumstance.	
Multimedia Device Category Code Simple Type	1	A data type that defines the code values for the kind of devices that can record multimedia data.	
Multiple Arrestee Segments Code Simple Type	1	A data type for the ways in which an arrested subject is counted or scored in a system so that a subject is counted only once despite potentially multiple arrests at a time.	
Musical Instrument Category Code Simple Type	1	A data type for a code that identifies a type of musical instrument.	
Name Translation Representation Code Simple Type	1	A data type describing the kinds of representations for names being translated	
Rad Instrument Mode Code Simple Type	1	A data type that defines the various code values for the operating modes of a radiation detection instrument.	
Rad Instrument Class Code Simple Type	1	A data type that defines the various code values for the classes of radiation detection instruments based on type and use.	
School Class Letter Grade Code Simple Type	1	A data type for describing different letter grades assigned for a school class.	
SDT Code Simple Type	1	A data type for Security Date or Series Year.	
Seal Intact Status Code Simple Type	1	A data type that defines the various SealIntactStatusCodes	
Seal Verification Status Code Simple Type	1	A data type that defines the various sealVerificationStatusCodes	
Secondary Inspection Kind Code Simple Type	1	A data type that defines the various code values for Secondary Inspection Kind.	
Secondary Inspection Referral Reason Code Simple Type	1	A data type that defines the variuos code values for Secondary Inspection Referral Reason

Vehicle Fuel Category Code Simple Type	1	A data type for kinds of fuel or motive power used to propel a vehicle.	
Vehicle Damage Extent Code Simple Type	1	A data type for an estimation of total damage to motor vehicle from crash.	
Vehicle Contributing Circumstances Code Simple Type	1	A data type for pre-existing motor vehicle defects or maintenance conditions that may have contributed to the crash.	
Duty Tax Fee Category Code Simple Type	1	A data type for a Duty Tax Fee Category	
Duty Tax Payment Method Code Simple Type	1	A data type for a code set that denotes the methods of payment for Duty Tax	
ECR Code Simple Type	1	A data type for VGTOF Group Member Capability Criteria for Entry.	
EPD Code Simple Type	1	A data type for Engine Power Displacement.	
Educational Adjustment Code Simple Type	1	A data type for describing the amount of educational adjustment needed.	
Scanning Resolution Category Code Simple Type	1	A data type for an indication of whether minimal (nominal) or native scanning resolution applies to a biometric image.	
Representation Appointment Category Code Simple Type	1	A data type for the type of appointment that is made	
Request Scope Code Simple Type	1	A data type that defines the various code values for Request Scope.	
RES Code Simple Type	1	A data type for Registration state for boat registrations.	
Resident Code Simple Type	1	A data type for whether or not a person was a resident of a town, city, or community in relation to some activity.	
Resource Component Capability Category Code Simple Type	1	A data type for capability information of a resource component.

Response Code Simple Type	1	A data type code indicating an accept or decline of a Request	
Risk Category Code Simple Type	1	A data type describing the kinds of risk categories for screening purposes	
Risk Level Code Simple Type	1	A data type for a code that identifies a risk level corresponding to the assessment score estimating the likelihood that the offender will recidivate during his or her term of supervision.	
RMI Code Simple Type	1	A data type for Ransom Money Indicator.	
Alert Category Code Simple Type	1	A data type for denoting the type of alert message.	
Alcohol Involvement Suspicion Code Simple Type	1	A data type for a driver or non-motorist involved in the crash suspected by law enforcement to have used alcohol.	
Alarm Event Response Action Code Simple Type	1	A data type for actions requested of an alarm event responder.	
Alert Event Details Category Code Simple Type	1	A data type for the category code designated to an alert event.	
Alarm Audible Description Code Simple Type	1	A data type code indicating whether the alarm is audible or silent.	
Aggravated Assault Homicide Factors Code Simple Type	1	A data type for circumstances of either an aggravated assault or homicide.	
Aggravated Assault Circumstance NDEx Code Simple Type	1	A data type for a code that describes the circumstances of either an aggravated assault or homicide. Includes all NIBRS codes, plus additional codes.	
Analyte	1	The unique number assigned by Chemical Abstracts Service (CAS) to a chemical substance.	
Downhole Point Parameter Type	1	The parameter being measured such as tip stress, resistivity, or pore pressure.	
Sample Method	1	Identifies the procedures/ processes and

Well Segment Type	1	Well intervals are repeating items that are used to describe the well details from the surface to the Well Hole Total Depth and/or Well Completion Depth. The interval types presented here include Borehole, Casing, Opening, Fill, Lithology, and Equipment. As many interval types and intervals may be used as necessary to describe a well.	
Supervision Level Code Simple Type	1	A data type for levels of supervision required for a person.	
Forensic Specimen Code Simple Type	1	A data type for a code that identifies a type of forensic specimen collected.	
Foster Care Funding Source Code Simple Type	1	A data type for describing a source for foster care funding.	
Foster Care Removal Reason Code Simple Type	1	A data type for reasons a child was removed from a foster care placement.	
Friction Ridge Image Missing Area Reason Code Simple Type	1	A data type for a reason a fingerprint ridge is missing	
Sample Parameter Type	1	The type of parameter associated with a sample.	
Preservative	1	Information describing the chemical means to preserve the sample.	
Fraction	1	Type of result basis.	
Subfacility Type	1	The unique identification number used by US EPA, Tribes or states to identify a facility site.	
Agency Service Hours Code Simple Type	1	A data type for the availability of an agency.	
Agency Authorization Code Simple Type	1	A data type for an agency's access category to data.	
AFCARS Permanency Goal Code Simple Type	1	A data type for a list of case plan goals for permanency defined for the Adoption and Foster Care Analysis Reporting System in 45 CFR

Encounter Category Code Simple Type	1	A data type for a kind of encounter.	
Encounter Device Category Level Code Simple Type	1	A data type for a kind of encounter device.	
Encounter Method Category Code Simple Type	1	A data type for a kind of encounter method.	
Enforcement Category Code Simple Type	1	A data type for a kind of enrollment.	
Enforcement Document Category Code Simple Type	1	A data type for a kind of enforcement document.	
Engine Displacement Unit Code Simple Type	1	A data type for the units of measurement for the displacement of a conveyance engine.	
Enrollment Category Code Simple Type	1	A data type for a kind of enrollment.	
Entertainment Device Category Code Simple Type	1	A data type for a code that identifies the type of radio, TV, camera, sound or entertainment device.	
Entry Status Category Code Simple Type	1	A data type for a kind of entry status at time of his most recent entry.	
Entry Status Found Category Code Simple Type	1	A data type for a kind of entry status at time of his most recent entry.	
EOC Plan Code Simple Type	1	A data type for a code set of whether the hospital

		has activated its Emergency Operations Plan (EOP)	
EOC Status Code Simple Type	1	A data type for a code set of whether the Emergency Operations Center (EOC) is currently operating.	
Equation Kind Code Simple Type	1	A data type that defines the equation type code values	
Escort Reason Category Code Simple Type	1	A data type describing the kinds of reasons for escorting subjects	
Ethnicity Category Code Simple Type	1	A data type for a kind of ethnicity.	
Ethnicity Code Simple Type	1	A data type for kinds of cultural lineages of a person.	
ETN Code Simple Type	1	A data type for Ethnicity.	
Laboratory Address Type	1	The type of monitoring location.	
Address Type	1	Types of addresses.	
Activity Subject Taxon	1	Subject Taxon identifies the organism that composes the sample when the activity intent is Tissue or Individual.	
Activity Medium	1	The name of the medium or matrix where the Field Activity occurred.	
Activity Intent	1	The primary reason the Field Activity occurred.	
Activity Depth Unit	1	Activity depth unit	
Biological Parent Determination Method Code Simple Type	1	A data type for a list of methods by which a biological relationship between a parent and child is legally determined.	
Biological Parent Determination Status Code Simple Type	1	A data type for describing the status of the determination of a biological relationship between a putative parent and a child.	
Biometric Category Code Simple Type	1	A data type describing the kinds of biometrics used for Screening	
Biometric Image Category Code Simple Type	1	A data type describing the kinds of biometrics

		used for Screening	
BLT Code Simple Type	1	A data type for Blood Type.	
BPS Code Simple Type	1	A data type for Body Parts Status.	
Image Transformation Code Simple Type	1	A data type for a kind of image transformation	
LPR Mode Of Operation Code Simple Type	1	A data type for a code indicating the type of vehicle lane where LPR system is located	
Offense NDEx Code Simple Type	1	A data type for a code that identifies the offense.	
Offense Summary Category Code Simple Type	1	A data type for a code that identifies an offense type being summarized.	
Office Equipment Category Code Simple Type	1	A data type for a code that identifies a type of office equipment.	
Activity Category	1	A descriptor used to distinguish different kinds of samples and different kinds of Measurements and Observations.	
Event Sequence Code Simple Type	1	A data type for events in sequence related to this motor vehicle, including both non-collision as well as collision events.	
Exchange Visitor Category Code Simple Type	1	A data type for the classification of the reason for the premature ending of the participation of a non-immigrant exchange visitor in an education program in the United States.	
Facility Usage Code Simple Type	1	A data type to describe the uses of real property facilities.	
Road Way Presence Bicycle Facility Code Simple Type	1	A data type for indication whether a facility is designated for the exclusive use of bicycles or are to be shared with other transportation modes.	
Road Way Presence Bicycle Signed Bicycle Route Code Simple Type	1	A data type for any road, path, or way which is specifically designated as being open to bicycle travel.	
Roadway Access Control Code Simple Type	1	A data type for the degree that access to

		abutting land is fully, partially or not controlled by a public authority.	
Roadway Functional Class Code Simple Type	1	A data type for the character of service or function of streets or highways.	
Roadway Grade Code Simple Type	1	A data type for the grade characteristics of the roadway in the direction of travel for this vehicle.	
Roadway Horizontal Alignment Code Simple Type	1	A data type for the horizontal geometric or layout and inclination characteristics of the roadway in the direction of travel for this vehicle.	
Roadway Lighting Code Simple Type	1	A data type for a kind of roadway illumination.	
Roadway Mainline Side Road Number Lanes Code Simple Type	1	A data type for number of through lanes on the side-road approaches at intersection including all lanes with through movement (through and left-turn, or through and rightturn) but not exclusive turn lanes.	
Roadway National Highway Part Code Simple Type	1	A data type for a designation as part of the National Highway System.	
Roadway Pavement Longitudinal Markings Centerline Presence Code Simple Type	1	A data type for Centerline Presence/Type on the roadway surface to guide or control the path followed by drivers.	
Roadway Pavement Longitudinal Markings Edge Line Presence Code Simple Type	1	A data type for Edgeline Presence/Type on the roadway surface to guide or control the path followed by drivers.	
Roadway Pavement Longitudinal Markings Lane Line Markings Code Simple Type	1	A data Type for Lane Line Markings used on the roadway surface to guide or control the path followed by drivers.	
Role Of Party Category Code Simple Type	1	A data type for the category of role played by the Party/Organization in the given context of a transaction	
Scale Unit Category Simple Type	1	A data type describing the kinds of measurement unit scales being used	
Scale Units Code Simple Type	1	A data type for a sampling frequency unit

		designator, pixels per inch, or pixels per centimeter	
Scanning Resolution Category Simple Type	1	A data type for an indication of whether minimal (nominal) or native scanning resolution applies to a biometric image.	
Scan Quality Code Simple Type	1	A data type for the quality of the data collected by an encounter device in performing a scan of an item of interest, as perceived by the operator.	
School Attendance Issue Category Code Simple Type	1	A data type for describing types of school attendance issues.	
Commercial Carrier US DOT Number Simple Type	1	A data type for a US DOT Number.	
Commercial Vehicle Configuration Code Simple Type	1	A data type for a general configuration of a motor vehicle.	
Compression Code Simple Type	1	A data type for codes that describe the algorithm (if any) by which data has been compressed.	
Complexion Category Code Simple Type	1	A data type for a kind of complexion.	
Condition Crash Code Simple Type	1	A data type for any relevant condition of the individual (motorist or non-motorist) that is directly related to the crash.	
Confidence Code Simple Type	1	A data type the defines the confidence leve code values expressed as a descriptive adjective	
Confidence Level Category Code Simple Type	1	A data type for a kind of confidence level.	
Construction Material Category Code Simple Type	1	A data type for a code that identifies a type of construction material.	
Consumable Goods Category Code Simple Type	1	A data type for a code that identifies a type of consumable goods.	
Contact Activity Category Code Simple Type	1	A data type for describing the contact activity category.	
Contact Information Availability Code Simple Type	1	A data type for a period of time or a situation in which an entity is available to be contacted with

		the given contact information.	
Contact Means Code Simple Type	1	A data type describing the means of contact	
Contact Role Code Simple Type	1	A data type for a code set of roles of the emergency management contact.	
Container ISO6346 Code Simple Type	1	A data type for ISO 6346 shipping container codes.	
Container Kind Code Simple Type	1	A data type for the kinds of shipping container.	
Content Category Code Simple Type	1	A data type code indicating the purpose or kind of resource content or payload being sent	
Conveyance Bound For Code Simple Type	1	A data type that defines the conveyance bound code enumerations.	
Conveyance Color Code Simple Type	1	A data type for a code that identifies the type of fuel or motive power used to propel a conveyance.	
Conveyance Fuel Category Code Simple Type	1	A data type for a code that identifies the type of fuel or motive power used to propel a conveyance.	
Disposition Code Simple Type	1	A data type for a code that identifies the disposition of an offense.	
Segment Location Code Simple Type	1	A data type for a finger segment location	
Examination Place Category Code Simple Type	1	A data type for a category of Examination Place	
Exchange Visitor Termination Category Code Simple Type	1	A data type for the classification of the reason for the premature ending of the participation of a non-immigrant exchange visitor in an education program in the United States.	
EXL Code Simple Type	1	A data type for Extradition Limitation.	
Explosive Component Code Simple Type	1	A data type for an item contained within an explosive device designed to cause harm or damage when propelled by an explosion.	
Explosive Filler Code Simple Type	1	A data type for a substance that can cause an explosion when ignited or detonated.	

System of Registries - Export

Value List Name	Value List Version	Value List Description	Organization
Explosive Ignition Code Simple Type	1	A data type for a means by which an explosive is ignited or detonated.	
EYE Code Simple Type	1	A data type for Eye Color.	
Eye Position Code Simple Type	1	A data type for an eye position (e.g. left, right)	
Face Image Acquisition Profile Code Simple Type	1	A data type for a set of criteria under which the facial image was captured	
Face Image Bounding Category Code Simple Type	1	A data type for a kind of face image in a bounding box	
Face Image Description Code Simple Type	1	A data type for a facial expression of the subject and other attributes associated with the subject's captured facial image, including physical characteristics	
Facial Image Missing Reason Code Simple Type	1	A data type for an enumeration of the facial image missing reason codes.	
Feature Point Category Code Simple Type	1	A data type for a kind of feature point of a captured facial image	
Facial Image Pose Category Code Simple Type	1	A data type for a FACIAL IMAGE POSE TYPE.	
Immigration Class Of Admission Category Code Simple Type	1	A data type for Immigrant Class of Admission (COA) Codes	
Impact Area Code Simple Type	1	A data type for events in sequence related to this motor vehicle, including both non-collision as well as collision events.	
Length Code Simple Type	1	A data type for units of measurements for a length value.	
LEOKA Activity Category Code Simple Type	1	A data type for a kind of activity or circumstance in which a law enforcement officer was engaged at the time of assault.	
LEOKA Activity Category NDEx Code Simple Type	1	A data type for a code that identifies the type of law enforcement activity which the officer was involved in at the time of incident. Includes all NIBRS codes, plus additional codes.	

System of Registries - Export

Value List Name	Value List Version	Value List Description	Organization
LEOKA Circumstance Category Code Simple Type	1	A data type for a LEOKA (Law Enforcement Officer Killed or Assaulted) classification of an incident.	
LEOKA Officer Assignment Category Code Simple Type	1	A data type for an assignment a law enforcement officer was on when assaulted.	
Level Of Care Code Simple Type	1	A data type for a placement as defined by the Adoption and Safe Families Act or state law.	
Lien Release Reason Code Simple Type	1	A data type for reasons a legal encumbrance may be removed from a property.	
Registration Type	1	Indicates if the user was added to the system via self service registration or user management registration.	
Facility Version Code	1	Indicates which version of the facility data this particular status applies to.	
Measure Qualifier Code	1	Indicates if the user was added to the system via self service registration or user management registration.	
Facility Usage Code Simple Type OCCS	1	A data type for the categories of facilities.	
Fault Severity Code Simple Type	1	A data type that defines the code values for the various categories of fault severity.	
FILE Code Simple Type	1	A data type for FILE fields.	
Finger Position Code Simple Type	1	A data type for a finger position	
Fingerprint Capture Technique Category Code Simple Type	1	A data type for a kind of fingerprint capture technique type.	
Fingerprint Category Code Simple Type	1	A data type for a kind of fingerprint type.	
Fingerprint Image Missing Area Reason Code Simple Type	1	A data type for a reason a fingerprint is missing	
Fingerprint Impression Category Code Simple Type	1	A data type for a kind of fingerprint impression.	
Fingerprint Pattern Category Code Simple Type	1	A data type for a kind of fingerprint type.	
Fingerprint Pattern General Class Code Simple	1	A data type for a class of fingerprint pattern used	

System of Registries - Export

Value List Name	Value List Version	Value List Description	Organization
Type		by most automated fingerprint information systems	
Fingerprint Pattern Sub Class Code Simple Type	1	A data type for a detailed subclassification of fingerprint patterns arches and whorls	
Fingerprint Pattern Whorl Delta Relationship Code Simple Type	1	A data type for a relationship between a whorl and a delta in a fingerprint pattern	
Finger View Code Simple Type	1	A data type for a kind of finger view	
Force Category Code Simple Type	1	A data type for kinds of weapons or forces used by a subject in committing an offense.	
IMT Code Simple Type	1	A data type for Image Type.	
Impression Capture Category Code Simple Type	1	A data type for a kind of impression capture by which an image was obtained	
Impression Capture Category Code Simple Type	1	A data type for a kind of impression capture by which an image was obtained	
Incident Bias Motivation Code Simple Type	1	A data type for bias motivations for an incident.	
Incident Category Code Simple Type	1	A data type for incident codes.	
Incident Exceptional Clearance Code Simple Type	1	A data type for ways in which an incident may be cleared exceptionally.	
Item Gender Use Code Simple Type	1	A data type for a code that identifies the gender for which the property is intended, such as a girl's bicycle or a man's jacket.	
Item Status Code Simple Type	1	A data type for a code that identifies the status of property. Expands the NIBRS PropertyLoss code list.	
Item Value Category Code Simple Type	1	A data type for a code that identifies the method used to assign the value of the property item(s).	
Jewelry Stone Category Code Simple Type	1	A data type for a code that identifies the type of jewelry gem or imitation gem.	
Jurisdiction Authority Code Simple Type	1	A data type for an authority with jurisdiction over a particular area.	
Justifiable Homicide Factors Code Simple Type	1	A data type for circumstances of a justifiable

		homicide.	
Juvenile Aggravating Mitigating Assessment Category Code Simple Type	1	A data type for a code that identifies the disposition of the arrest if the arrestee was a juvenile at the time of arrest.	
Juvenile Disposition Code Simple Type	1	A data type for a code that identifies the disposition of the arrest if the arrestee was a juvenile at the time of arrest.	
Juvenile Family Financial Problem Code Simple Type	1	A data type for describing whether a family suffers from financial problems.	
Juvenile Special Need Code Simple Type	1	A data type for an enumerated list from the Adoption and Foster Care Annual Reporting System, 45 CFR 1355, appendix B (Adoption Data Elements), section III (Special Needs Status).	
JWT Code Simple Type	1	A data type for Jewelry Type.	
LIS Code Simple Type	1	A data type for License State.	
LIT Code Simple Type	1	A data type for License Type.	
Livestock Category Code Simple Type	1	A data type for a code that identifies a type of livestock/pet.	
Location Activity Code Simple Type	1	A data type for the kinds of facilities.	
Location Category Code Simple Type	1	A data type for kinds or functional descriptions of a location.	
Location Category Code Simple Type	1	A data type for a code indicating the location type.	
Location Category NDEx Code Simple Type	1	A data type for a code that characterizes a location or area. Includes all NIBRS codes, plus additional codes.	
Location Element Category Code Simple Type	1	A data type for a kind of location element.	
Activity Depth Reference Point	1	The text that describes the reference point from which the depth is measured, typically "Surface".	
Activity Community	1	The name of the Biological Community from

		which the Sample was taken.	
BTMA Code Simple Type	1	A data type for Vehicle Make for Boat Trailer.	
BTY Code Simple Type	1	A data type for Boat Type.	
BXR Code Simple Type	1	A data type for Body X-Rays Available.	
CAD Call Code Simple Type	1	A data type for a code that identifies the type of service call.	
CAD Call Source Code Simple Type	1	A data type for a code that identifies the source type of a service call.	
CAL Code Simple Type	1	A data type for Gun caliber.	
Canadian Province Code Simple Type	1	A data type for provinces in Canada.	
CANUS Lexicon APR07 Category Code Simple Type	1	A data type for a category defined by the April 2007 Canada/USA Bi-National Vessel of Interest (VOI) Lexicon category codes.	
Capacity Status Code Simple Type	1	A data type for a code set of bed kind or sub-category bed kind.	
Capture Resolution Code Simple Type	1	A data type for a minimum or native scanning resolution	
Case Initiation Reason Code Simple Type	1	A data type for a list of overall procedural reasons for opening the case.	
Case Kind Code Simple Type	1	A data type for the kinds of cases.	
Case Priority Code Simple Type	1	A data type for the kinds of case priorities.	
Case Relationship Kind Code Simple Type	1	A data type for the kinds of relationships a Case may have with other entities.	
Case Request Code Simple Type	1	A data type for a kind of case request code	
Case Response Code Simple Type	1	A data type for a kind of case response code	
Case Threat Level Code Simple Type	1	A data type for a case threat level code values	
Caseworker Category Code Simple Type	1	A data type describing the specific involvement of a caseworker as related to a particular case.	
CAT Code Simple Type	1	A data type for Vehicle/Boat Part Category.

Crash Vehicle Category Code Simple Type	1	A data type for a motor vehicle unit type and number assigned to uniquely identify each motor vehicle involved in the crash.	
Crash Vehicle Emergency Use Indication Code Simple Type	1	A data type for official motor vehicles that are involved in a crash while on an emergency response.	
Crash Weather Condition Code Simple Type	1	A data type for the prevailing atmospheric conditions that existed at the time of the crash.	
Crash Work Zone Indication Code Simple Type	1	A data type for a crash that occurs in or related to a construction, maintenance, or utility work zone, whether or not workers were actually present at the time of the crash.	
CRC Code Simple Type	1	A data type for Circumcision.	
Credentials Authenticated Code Simple Type	1	A data type for the states of authentication of credentials.	
Credit Bank ID Card Category Code Simple Type	1	A data type for a code that identifies a type of Credit/Bank/ID Card.	
Crew Role Code Simple Type	1	A data type for a crew role.	
Criminal Activity Category Code Simple Type	1	A data type for kinds of incidents.	
CTZ Code Simple Type	1	A data type for Citizenship.	
Currency Code Simple Type	1	A data type for a currency that qualifies a monetary amount.	
Data Processing Equipment Category Code Simple Type	1	A data type for a code that identifies the type of computer hardware and software.	
Day Of Week Code Simple Type	1	A data type for days of the week.	
DCH Code Simple Type	1	A data type for Dental Characteristics.	
DEA Class Schedule Code Code Simple Type	1	A data type for a class to which the Drug Enforcement Agency (DEA) has assigned the product under the Controlled Substances Act of 1970.	
ISO 3166-1 Alpha-2 Country Codes	1	Two-letter country codes defined in ISO 3166-1,

		part of the ISO 3166 standard published by the International Organization for Standardization (ISO), to represent countries, dependent territories, and special areas of geographical interest.	
ISO 3166-1 Numeric Country Codes	1	Three-digit country codes defined in ISO 3166-1, part of the ISO 3166 standard published by the International Organization for Standardization (ISO), to represent countries, dependent territories, and special areas of geographical interest.	
Primary Type	1	The code that represents the primary type designation of a Station.	
Secondary Type	1	The code that represents the secondary type designation of a Station. Not every combination requires a Secondary Type.	
Well Formation Type	1	Name of the primary formation or soils unit, in which the well is completed.	
Weight Basis Type	1	Weight basis type	
Toxicity Test Type	1	Type of Toxicity Test	
Temperature Basis Level	1	A statistic or calculation type which describes the reported result (e.g., average, mode, median, MPN).	
Statistic Type	1	The type of certain statistics	
Station Type	1	The type of certain stations	
Station Group Type	1	The type of certain Station Group Types	
Spring Type Improvement	1	The code that describes the man-made improvement made to the Spring.	
Document Category Code Simple Type	1	A data type for the code that represents the kind of document that it represents.	
Bias Motivation Code Simple Type	1	A data type for a code that identifies the type of bias that motivated the offense, if any. Includes

		all NIBRS codes, plus additional codes.	
Bias Motivation Cause Code Simple Type	1	A data type for a code that indicates offender was motivated to commit the offense, in whole/part, because of bias.	
Bicycle Category Code Simple Type	1	A data type for a code that identifies the type of bicycle.	
Binary Category Code Simple Type	1	A data type for a code that represents the type of digital representation.	
BMA Code Simple Type	1	A data type for Boat Make.	
Booking Category Code Simple Type	1	A data type for a code that identifies the type of booking conducted.	
Boundary Shape Code Simple Type	1	A data type for a shape of a boundary of a feature within an image	
BRA Code Simple Type	1	A data type for Vehicle/Boat Part Brand.	
Brand Code Simple Type	1	A data type for a brand applied to a vehicle title or odometer.	
Brand Damage Percentage Category Code Simple Type	1	A data type for the percentage of damage in a brand on a vehicle.	
Brander Category Code Simple Type	1	A data type for kinds of branders.	
Latitude Direction	1	The direction of the latitude measurement, being N or S.Aa list of the two valid codes are shown with the meanings.	
Coordinate Type Code	1	Indicates whether the Coordinate(s) are represented by S, P, C, or W. In the case of P, C or W, the latitude and longitude represents the centroid of the area.	
Hazmat UN Code Simple Type	1	A data type for a United Nations/North American (UN/NA) Hazardous Materials Code pertaining to a hazardous material.	
Hearing Category Code Simple Type	1	A data type for the type of hearing that is going to take place.

Value List Name	Value List Version	Value List Description	Organization
Hit And Run Code Simple Type	1	A data type for cases where the vehicle, or the driver of the vehicle, in transport is a contact vehicle in the crash and departs the scene without stopping to render aid or report the crash.	
Household Furnishings Category Code Simple Type	1	A data type for a code that identifies a type of household furnishings.	
Housewares Category Code Simple Type	1	A data type for a code that identifies a type of household goods.	
Fuel Selection Code	1	Fuel Selection Code	
Fuel Consumption Code	1	Fuel Consumption Code	
Fuel Consumption	1	Fuel Consumption	
Event Class Code	1	Event Class Code	
Emissions Type Code	1	Emissions Type Code	
Emissions Operating Type Code	1	Emissions Operating Type Code	
Emission Reduction Technique Code	1	Emission Reduction Technique Code	
Data Set ID	1	Data Set ID	
County FIPS Code	1	Code defining the US county, Province, Parish, or Independent city	
Country FIPS Code	1	Code defining the country	
Control Measure Code	1	Control Measure Code	
Calculation Parameter Type	1	Calculation Parameter Type	
Calculation Method Code	1	Calculation Method Code	
Calculation Material Code	1	Calculation Material Code	
AgencyId	1	Codes used to identify agencies supplying data to EIS	
Affiliate Type	1	Affiliate Type	
Benefit Document Status Category Code Simple Type	1	A data type describing the kinds of status categories for Benefit Documents	

System of Registries - Export

Value List Name	Value List Version	Value List Description	Organization
Benefit Application Status Category Code Simple Type	1	A data type for a status of a benefit application.	
Benefit Document Category Code Simple Type	1	A data type for a kind of benefit document.	
Benefit Evidence Category Code Simple Type	1	A data type for a kind of evidence provided in support of a benefit request.	
Charge Category Code Simple Type_SCR	1	A data type describing the kinds of apprehension charges.	
Child Support Enforcement Case Disposition Decision Code Simple Type	1	A data type for the disposition decisions that a tribunal can reach at the conclusion of a hearing, trial, or other proceeding in a child-support-enforcement case.	
Child Support Enforcement Case Disposition Decision Code Simple Type	1	A data type for the reasons why a child-support-enforcement case was transferred.	
Child Support Enforcement Case Transfer Code Simple Type	1	A data type for the reasons why a child-support-enforcement case was transferred.	
Child Support Insurance Coverage Code Simple Type	1	A data type for the kind(s) of insurance coverage ordered in a child-support-enforcement case.	
Child Support Obligation Order Action Code Simple Type	1	A data type for the legal actions a child-support-enforcement tribunal can take regarding a child-support obligation.	
Child Welfare Charge Status Category Code Simple Type	1	A data type for a list that describes the current status of the associated charge.	
Clinical Status Code Simple Type	1	A data type for a code set of the clinical status of the facility.	
Clothing Category Code Simple Type	1	A data type for a code that identifies a type of clothing.	
CMC Code Simple Type	1	A data type for Caution/Medical Conditions.	
CMV Code Simple Type	1	A data type for whether a person was operating a commercial motor vehicle in an incident.	
Injured Transportation Source Code Simple Type	1	A data type for a kind of transport to the medical facility receiving the patient.

Information Source Category Code Simple Type	1	A data type for an affiliation of the person completing the crash report such as Source of Information	
Informal Disposition Category Code Simple Type	1	A data type for a kind of informal disposition.	
Indian Nation Code Simple Type	1	A data type for a code that identifies an American Indian nation.	
Incident Status Code Simple Type	1	A data type for a code that identifies the current disposition of the incident.	
Incident Level Dissemination Code Simple Type	1	A data type for a sensitivity level of an incident.	
Incident Factor Code Simple Type	1	A data type for factors that may have been involved in or contributed to a subject committing an offense.	
Country Subdivision Category Code Simple Type	1	A data type for a COUNTRY SUBDIVISION TYPE.	
Country Alpha 2 Code Simple Type	1	A data type for country, territory, or dependency codes.	
Facility Source Type Code	1	Facility Source Type Code	
Facility Category Code	1	Facility Category Code	
Event Stage Code	1	Event Stage Code	
Event Size Code	1	Event Size Code	
RAD EventType	1	The Reach Address Database (RAD) stores the reach address of each Water Program feature that has been linked to the underlying surface water features (streams, lakes, etc) in the National Hydrology Database (NHD). These reach addresses record the geographic extent of Water Program features in both tabular and spatial formats. The reach addresses link to a static copy of the NHD obtained from the USGS. Periodically, EPA retrieves an updated version of the NHD from USGS and migrates all reach addresses in the RAD to this new version.

LOCATIONS_LUT	1	Location code.	
HUCS_LUT	1	8-digit USGS hydrologic Unit Code (HUC) (text format). This field is optional and not included for all entries.	
DELIST_ATTAINMENT_REASON_LUT	1	Code for the rationale for the delisting of an Assessment Unit/Pollutant combination.	
DELISTED_REASON_LUT	1	Causes of impairment associated with 303(d) listed waters may be delisted for a number of reasons. These include change in impairment terminology, resegmentation, approval or establishment of a TMDL, other pollution control requirements, and the cause of impairment not being caused by a pollutant. This field is optional and not included for all relevant entries.	
CLASS_LUT	1	Unique identifier for CLASS_ID Assigned from WQSDB.	
CAUSE_LUT	1	Unique id assigned to the cause of impairment.	
ATTAINMENT_LUT	1	Code for the attainment status for a particular assessment unit's designated use.	
ATLAS_LUT	1	Code for the water type (e.g., river) or population.	
ASSESSMENT_TYPE_LUT	1	Specific code designating a category of data types used to make attainment/impairment decision (e.g., biological habitat).	
ASSESSMENT_METHODS_LUT	1	Method code.	
ASSESSMENT_CONF_LUT	1	A score ranging from a lower range of 1 to an upper range of up to 4 indicating the reliability and precision of the applied assessment for an assessment type.	
WQS_ATTAINMENT_REASON_LUT	1	Causes of impairment associated with 303(d) listed waters maybe removed for a number of

		reasons which show a water is supporting water quality standards. These include but are not limited to new assessment methods, change in water quality standards, restoration activities, incorrect basis for original listing, and removal of the threatened status of a water. This field is optional and not included for all relevant entries.	
WATER_TYPE_LUT	1	A description of the type of water that the assessment unit represents.	
USE_LUT	1	EPA unique Identifier assigned to a designated use.	
TREND_LUT	1	Code for the water quality trend for a particular assessment unit as defined in Section 314 of the Clean Water Act.	
TMDL_METHOD_LUT	1	TMDL method code.	
SOURCE_LUT	1	EPA unique Identifier assigned to the source of the pollutant.	
PROB_STRESSOR_CATEGORY_LUT	1	State attainment category code used in statistical survey data.	
PROB_ATTAINMENT_CATEGORY_LUT	1	State attainment category code used in statistical survey data.	
Zone Improvement Plan (ZIP) Postal Codes	1	Combinations of the five-digit Zone Improvement Plan (ZIP) code and the four-digit extension code that represents the geographic segment that is a subunit of the ZIP code, assigned by the U.S. Postal Service to a geographic location to facilitate mail delivery; or all the postal zone specific to the country, other than the U.S., where the mail is delivered.	
Vertical Collection Method Names	1	Names that describes methods of collecting altitude measure.	
Timestamps	1	Dates and times that are system generated to record when an event occurred.

Value List Name	Value List Version	Value List Description	Organization
Sample Batch Type Names	1	Names of types of sample batches.	
Reporting Limit Acronyms	1	Client defined acronyms that specify the types of reporting limits.	
North American Industry Classification Sector Codes	1	Codes that represent sectors of the economy as defined by the North American Industry Classification System (NAICS).	
Lifespan Names	1	Names of a lifespans.	
ITIS Taxonomic Serial Numbers	1	Unique identification numbers assigned to distinct biota by the Integrated Taxonomic Information System (ITIS).	
Frequency Names	1	Names to describe the relative number of times a event occurs within a specified time period.	
File Content Type Codes	1	Codes that describe the content of data files.	
Environmental Matrix Types Names	1	Names of types of environmental matrices.	
Enforcement Action Names	1	Formal names of the enforcement action.	
Compliance Inspection Types	1	Types of compliance inspections conducted.	
Chemical Substance Names	1	Names assigned to a chemical substance.	
Calibration Type Names	1	Names for types of instrument calibrations.	
Address Text	1	Text that provides information about the physical location of a facility, including urban-style address and rural address.	
(Association unused)	1	Default value list to use where needed to populate unused associations required by OneData.	
Yes or No Codes-(0 and 1)	1	Codes for yes or no responses.	
US ZIP-plus-4 Alpha Codes	1	U.S. zone improvement plan (ZIP+4) codes (nnnnn-nnnn).	
U.S. ZIP Codes	1	Codes representing postal zones.	
U.S. ZIP + 4 Numeric Postal Codes	1	ZIP + 4 Codes representing postal zones (nnnnnnnn).

Value List Name	Value List Version	Value List Description	Organization
Telephone Numbers-Formatted	1	Formatted telephone numbers used for telecommunications.	
Telephone Numbers - Unformatted	1	Unformatted telephone numbers used for telecommunications.	
Telephone Number Area Codes	1	Telephone area code numbers used for telecommunications.	
State Postal Codes	1	Codes for states assigned by the US Postal Service.	
State Names	1	Names of states or provinces.	
SIC/NAICS Primary Indicator Text	1	Text that indicate whether the associated SIC or NAICS code represents the primary activity occurring at the facility site.	
Sample Identifiers	1	Identifiers to uniquely identify a sample.	
Person Identifier Codes	1	Codes that identify persons.	
Organization Identifier Codes	1	Codes that identify organizations.	
Linear Measures	1	Linear measures.	
Linear Measure Units	1	Codes that represent units of measure for measuring linear distance.	
Linear Measure Unit Codes	1	Linear measures in feet or meters.	
Latitude Measures	1	Sets of latitude measures.	
Jurisdiction Codes	1	Codes representing the types of affiliations associated with a facility.	
Geographic Direction Codes	1	Codes that represent geographic directions.	
FIPS State-County Codes	1	5-Character state and county codes assigned by the Federal Identification Program System (FIPS) 6-4 publication.	
Facility Identification Numbers	1	Identification numbers assigned by a regulatory agency or program to uniquely identify a facility.	
Entity Sequence Numbers	1	Sequence Numbers that define entities	
EMCI Registry Numbers	1	Registry numbers assigned by EMCI.

Value List Name	Value List Version	Value List Description	Organization
Density Unit Names	1	All units of measure for recording density.	
Degree Measures of Latitude	1	Measures of the distance of an angle north of south of the equator.	
Country Names	1	Country names of the world.	
Concentration Unit Text	1	Units of concentration associated with a measured value.	
Communication Type Names	1	Methods of communication between persons or organizations.	
Biological Organism Names	1	Genus and species names for organisms.	
Analytical Method Names	1	Names of physical features, biologic entities, or chemical substances monitored.	
Yes or No Codes-(Y and N)	1	Codes for yes or no responses.	
Year Codes	1	4 character year dates.	
Wellhead Protection Area Names	1	Names of Wellhead Protection Areas.	
Well Use Names	1	Names that designate primary uses of wells.	
Well type names	1	Names that designate well types.	
Well StatusText	1	Text that states statuses of wells.	
Well Opening Type Names	1	Names of types of well openings.	
Well Measuring Influences Text	1	Texts that designate influences that affect measurements or water samples.	
Well Interval Lithologic Unit USGS/USCS Codes	1	Codes assigned to a type of underground Lithologic Unit by the USGS/USCS.	
Well Interval Equipment Type Names	1	Names of types of equipment	
Well Identification Names	1	Names that designate wells.	
Well Identification Codes	1	Codes that identify wells.	
Well Development Method Names	1	Names of methods used to increase the efficiency of a well after construction.	
Well Construction Method Names	1	Names of well construction methods.	
Well Completion Method Names	1	Names of methods of well completion.

Value List Name	Value List Version	Value List Description	Organization
Water Body/Aquifer Names	1	Names of lakes, streams, rivers, estuaries, aquifers, and reach names in the National Hydrography Dataset or other water features.	
Waste Handling Type Names	1	Names of types of waste handling protocols.	
Violation Class Types	1	Types of violations.	
Vertical Reference Point Texts	1	Text that describes vertical references used to indicate the datum or reference points used to establish a measurement.	
Vertical Reference Point Names	1	Names of reference points used for vertical measurements.	
Vertical Reference Datum Names	1	Names of reference datum used for determining altitude.	
Vertical Reference Datum Codes	1	Codes that represent the reference datum used in determining the altitude measure.	
Vertical Collection Method Codes	1	Codes that represent the method of collection for the altitude component of geographic coordinates.	
Vernacular Names	1	Vernacular names associated with an occurrence of a biological entity.	
Verification Method Names	1	Names that describes the methods used to verify latitude and longitude coordinates.	
Verification Method Codes	1	Codes that represent methods used to verify latitude and longitude coordinates.	
UTC Difference Values	1	Signed time differences between local time and Coordinated Universal Time (UTC).	
US Postal Service State Abbreviations	1	All standard two-character US Postal Service abbreviations for state.	
Tribal Names-BIA List	1	Official names of tribal entities recognized and eligible for funding and services from the Bureau of Indian Affairs (BIA) by virtue of their status as Indian tribes (as of November 25, 2005).

Value List Name	Value List Version	Value List Description	Organization
Tribal Codes-BIA List	1	Codes associated with tribal entities that are recognized and eligible for funding and services from the Bureau of Indian Affairs (BIA) by virtue of their status as Indian tribes.	
Time Interval Values	1	The value that represents an interval of time.	
Tibal Statutes Names	1	Names of Tribal Statutes.	
Thermal Preservation Names	1	Names of the temperature means used to preserve the sample.	
Test Result Types	1	Types of test results.	
Telephone Numbers	1	Telephone numbers used for telecommunications.	
Telephone Number Type Names	1	Names of specific types of telephone numbers.	
Telephone Extension Numbers	1	Numbers assigned within an organization to an individual telephone number that extends the external telephone number.	
Synonym Status Names	1	Names that identify the correctness status of a synonym.	
Supplemental Address Text	1	Text that provides additional information about a place, including a building name with its secondary unit and number, an industrial park name, an installation name, or descriptive text where no formal address is available.	
Substance Name Contexts Names	1	Names that define the context in which a chemical substance name or synonym is used.	
Status Names	1	Names of statuses.	
Statistical Basis Names	1	Names of the statistical basis describing how measure value was derived.	
Statistical Base Codes	1	Codes used for methods to calculate derived results.	
State Statutes Names	1	Names of State Statutes.	
State Codes	1	Alphanumeric codes that represent the name of

		a principal administrative subdivision of the United States, Canada, or Mexico.	
Standard Industrial Classification Group Codes	1	Codes that represent a group of related industries within the economy as specified by the Standard Industrial Classification (SIC) of Establishments.	
Standard Industrial Classification Division Codes	1	Codes that represent divisions of the economy that cover an economic activity as specified by the Standard Industrial Classification (SIC) of Establishments.	
Standard Industrial Classification (SIC) Codes	1	Standard Industrial Classification (SIC) codes that describe the primary economic activities of business establishments. This is a 4-digit code.	
Source Water Assessment Area Names	1	Names of Source Water Assessment Areas.	
SIC/NAICS Primary Indicators	1	Names that indicate whether the associated SIC or NAICS Code represents the primary activity occurring at the facility site.	
SIC Classification Codes-Major Industrial Groups	1	Codes that represent the major industrial groups of business establishments in the Standard Industrial Classification (SIC) of Establishments.	
Shipping Method Text	1	Text that describes shipping methods.	
Second Codes	1	Codes that represent times on the clock as one-sixtieth of a minute.	
Sample Handling Type Names	1	Names of types of sample handling.	
Road Type Names	1	Designations of types or categories of roads.	
Road Surface Type Names	1	Names of road surface types.	
Review Type Names	1	Names for review types.	
Results bases	1	Bases upon which the results are calculated.	
Result Status Names	1	Names indicating the acceptability of a result with respect to QA/QC criteria.	
Result Basis Category Names	1	Names for types of result categories.

Value List Name	Value List Version	Value List Description	Organization
Resource Names	1	Title designatitions of resources.	
Resource Identification Codes	1	Codes that represent resources.	
Relationship Types	1	Types of relationships between associated entities.	
Relationship Names	1	Names that describe the relationship of one entity to another.	
Regulatory Priority Names	1	Names of the priority that prompted regulatory action.	
Reference Point Names	1	Text that describes the reference point for which geographic coordinates were established.	
Reference Point Codes	1	Codes that represent the point of reference for geographical coordinates.	
Reference Codes	1	Codes that represent references to an information source.	
Qualifier Codes	1	Codes to indicate data qualifires.	
Project Names	1	Names of projects	
Program System Names	1	Names of information management systems.	
Program Names	1	Names of the program/jurisdictional authority under which a permit is issued or granted.	
Preparation Type Text	1	Code or names used to define types of sample preparation.	
Precision Measures	1	Measures of mutual agreement among individual measurements of the same property.	
Points of Contact Identification Codes	1	Identification codes that represent individuals or organizations.	
Persons Type Names	1	Names of titles or classifications of persons who represents authority.	
Person's Organizational Titles	1	Organizational titles held by people.	
Persons' Names	1	Complete names of persons, including first name, middle name or initial, and surname.

Permitted Feature Type Names	1	Names for features or processes.	
Permitted Feature Identifiers	1	Alphanumeric identifiers or names assigned by a permit issuing organization to identify a permitted unit, feature, or process.	
Permit Types	1	Types of permits.	
Permit Numbers	1	Alphanumeric identifiers assigned to the permit by a permit issuing or granting organization.	
Permit Names	1	Names assigned to the permit by a permit issuing or granting organization to identify a permit or permit application.	
Organization Type Names	1	Names of types of organizations.	
Organization Names	1	Names of organizations.	
Organization Identifiers	1	Identifiers that uniquely represent organizations.	
Obstruction Type Names	1	Names types of obstructions.	
Observation Qualifier Values	1	Reasons for a deviation from an expected observation.	
Observation Qualifier Types	1	Types or classifications of events causing a deviation from an expected observation.	
North American U. S. National Industry Classification System (NAICS) Codes	1	Codes that represent a subdivision of an industry in the North American Industry Classification System (NAICS) that accommodates user needs in the United States.	
North American Industry Classification System Codes (NAICS)	1	Codes that represent an industry as specified in the North American Industry Classification System (NAICS).	
North American Industry Classification Subsector Codes	1	Codes that represent a subsector of the economy as specified in the North American Industry Classification System (NAICS).	
North American Industry Classification Group	1	Codes that represent a group of related

Name Suffix Text	1	Text associated with a person's name that represents professional titles or lineage.	
Name Prefixes	1	Titles that precede people's names.	
Month Codes	1	Codes representing a particular month within a Gregorian calendar year.	
Monitoring Location Type Names	1	Names for the types of monitoring locations.	
Monitoring Action Outcome Text	1	Text that describe the results of a monitoring action.	
Molecular Formulas Codes	1	Codes that represent the number of atoms of each element in a molecule of a chemical substance.	
Minute Codes	1	Codes representing times on the clock as one-sixtieth of an hour.	
Method Type Identification Codes	1	Codes that represent types or categories of methods.	
Method Qualifier Names	1	Names of types of method qualifiers.	
Method Names	1	Names of methods or procedures used to attain an objective.	
Method Codes	1	Codes representing methods for collecting and/or analyzing samples for a specified parameter.	
Media Type Names	1	Names describing types of recording media.	
Media Names	1	Names of environmental media.	
Measurement Text	1	Values and their associated units of measure and/or qualifiers.	
Measured Values Numbers	1	Numbers that represent measured values.	
Matrix Names	1	Names of matrices

Map Scale Numbers	1	Numbers representing the proportional distance on the ground for one unit of measure on a map or photo.	
Mailing Address Text	1	Text that provides additional information to facilitate the delivery of a mail piece, including building name, secondary units, and mail stop or local box numbers not serviced by the U.S. Postal Service.	
Longitude Measure Numbers	1	Measures of the angular distances on a meridian east or west of the prime meridian.	
Location Names	1	Names that designate locations.	
Location Identification Codes	1	Codes that identify a location.	
Locality Type Names	1	Names of Types of localities.	
Local Statutes Names	1	Names of Local Statutes.	
Legal Status Names	1	Names of legal statuses.	
Legal Rights Names	1	Names that designate legal rights.	
Legal Forum Names	1	Names of legal forums.	
Latitude Measure Numbers	1	Measures of the angular distance on a meridian north or south of the equator.	
Language Names	1	Names of languages used for communication.	
Laboratory Type Text	1	Text that depicts classifications of laboratories.	
Laboratory Identification Codes	1	Codes that represent laboratories.	
Jurisdictional Names	1	Names of jurisdictions.	
Join Type Names	1	Names of types of joins.	
Item Names	1	Names of items	
Institutional Controls Names	1	Names of Institutional Controls.	
Institutional Controls Identification Codes	1	Codes that represent Institutional Controls.	
Information Source Names	1	The entities primarily responsible for making the content of the resource.

Individual's surnames	1	Surnames of people.	
Individuals' Middle Names or Initials	1	Middle names or initials of a person's name.	
Individual Identifiers	1	Identifiers that uniquely identify a person.	
Indicator Codes	1	Codes that represent true or false conditions.	
Implementation Status Text	1	Text that describe implementation statuses.	
Identifiers	1	Identifiers for items.	
ICTVdB Identifiers	1	Identifiers assigned to biological entities by the ICTVdB.	
IC Objective Names	1	Names of IC objectives.	
IC Objective Identification Codes	1	Codes that identify IC objectives.	
IC Instrument Types Text	1	Text describing types of institutional control instruments.	
IC Category Names	1	Names of categories of institutional controls.	
Hour Codes	1	Codes representing times on the clock as one-twenty-fourth of a day.	
Horizontal Reference Datum Names	1	Text that describes the horizontal reference datum used to determine latitude and longitude coordinates.	
Horizontal Reference Datum Codes	1	Codes that identify the horizontal reference datum of the latitude and longitude.	
Horizontal Collection Method Names	1	Names of methods of determining horizontal coordinates (latitude and longitude).	
Horizontal Collection Method Codes	1	Codes that represent methods used to determine the horizontal geographic coordinates (latitude/longitude) of a point.	
Grouped Value Domain	1	No Registry Definition	
Groundwater Area Names	1	Names that designate areas where groundwater

		occurs.	
Geometric Type Names	1	Names that identify the geometric entities represented by a sequence of points determined by geographic coordinates.	
Geometric Type Codes	1	Codes that represent the geometric entity described by geographic coordinate points.	
Geographic Data Source Names	1	Names of sources for geographic locational data.	
Geographic Area Type Names	1	Names of types of geographic areas.	
Geographic Area Names	1	Names of geographic areas.	
Formation Type Names	1	Names of primary formations or soils units.	
First Names	1	Given names for individuals.	
Fill Method Type Names	1	Names of types of methods used to fill.	
Fill Material Type Names	1	Names of types of materials used as fill.	
File Names	1	Names for data files.	
File Format Type Codes	1	Codes that represent the format types of data files.	
File Content/Format Names	1	Codes that represent the content and format types of data files.	
Federal Statute Names	1	Names of Federal Statutes.	
Federal Agency Type Codes	1	Codes that represent the types of Federal Agencies.	
Facility/Feature Characteristic Names	1	Descriptive names of the item that the facility/feature is designed to or actually accommodates, or produces.	
Facility/Feature Characteristic Measure Names	1	Names that describe what the feature characteristic represents.	
Facility Types Names	1	Names of types of facilities.	
Facility Site Names	1	Names of facility sites.	
Facility Site Identification Numbers	1	Non-intelligent numbers that uniquely identify facilities.
